in brief sketch of work of matthew fontaine maury 1861 [?]65 richard launcelot maury offers a meticulous historical account of his father s pioneering contributions to naval science and hydrography during the tumultuous years of the american civil war the narrative is crafted with both precision and passion embodying a literary style that is both scholarly and accessible through immersive detail the author illustrates maury [?]'s innovative approaches in charting ocean currents and weather patterns emphasizing the intersection of science and wartime necessity that marked this era this work stands as a crucial addition to the annals of american maritime history and serves as a testament to the intellectual spirit of the 19th century showcasing the merging of scientific inquiry and national interests amid conflict richard launcelot maury the son of matthew fontaine maury draws on familial legacy and personal insight to enrich this biographical sketch having grown up in the shadow of his father s monumental achievements maury s passion for documentation and historical accuracy is evident his unique perspective as both a son and a historian informs the narrative bringing to life not only the achievements but also the personal challenges faced by his father during the civil war this book is essential reading for those interested in american history naval science and the influence of individual intellect during warfare maury s exploration not only highlights the contributions of one man but invites readers to reflect on the broader implications of scientific endeavor in service to one s country scholars historians and casual readers alike will find inspiration in this tribute to innovation and resilience during an era of profound change

this is the first full length comparative study of the music of the christian and jewish liturgies it is designed to show the liturgical and musical interdependence of church and synagogue during the first millennium of the christian era and to highlight the series of cultural exchanges between east and west that occurred during those centuries with a wealth of scholarly evidence the author tells the story of the development of the christian forms of worship both eastern and roman at the same time he explains the modifications made in jewish ceremonies and rituals in areas where jews and christians lived side by side with resulting exchange in both directions from church to synagogue as well as from synagogue to church professor werner first examines jewish practices of worship at the time of the beginnings of christianity and then traces the spread and modifications of these ancient jewish and even pre jewish conceptions of sacred music and ritual as they were adapted by various christian groups historical philological and musicological scholarship is used to discover the complex interrelationship between christian and hebraic elements in prayer books poetry and psalmody hymns devotional music and all the other aspects of sacred liturgy professor werner has used many sources previously neglected and has reexamined those already available scholars of theology liturgy and music and historians as well will find much that will stimulate further research and all interested in the formation of the religions of the west will stand to profit from

this scholarly work on the interplay of two great religious movements jacket

this is the first book to unpack the history and significance of the opening ceremony of the olympic games the frontispiece of the most watched event on earth covering the period from the moscow olympics in 1980 to tokyo 2020 the book examines when how and why the olympic opening ceremonies artistic programme became the multi act spectacles seen today it argues that the embedded nationalistic ethnic and environmental discourses contained in opening ceremonies have much to tell us about national narratives memory and myth making about the history of representation and about how the olympics and the spectacle of mega events are prisms through which local and global socio political issues are refracted from the climate crisis and the struggle for minority rights to the emergence of a multi polar world this book is fascinating reading for anybody with an interest in the sociology culture history or politics of sport and events geopolitics or performance studies

visual vestiges explains how information design evolved over the centuries to make practical information clear credible and emotionally engaging in visual vestiges charles kostelnick analyzes the role of the past in understanding studying deploying and teaching visual language in business technical and professional communication he explores how information designs text pictures icons charts and graphs evolved to develop their rhetorical power and the many ways in which their vestigial forms permeate contemporary design to explain these temporal dynamics he examines the forces that underpin them cultural shifts in aesthetics taste and values social changes that redefine how we relate to one another rhetorically and innovations in technology that transform the tools and channels we use to visualize and interpret information drawing on rhetorical theory design studies art history and historical and contemporary examples kostelnick explores the rhetorical role of time in bridging past and present design forms by constantly regenerating them through visual conventions by heightening pathos appeals through sentiment and nostalgia and by bolstering ethos amplifying epideictic displays and narrating stories with text pictures and charts

in september 1666 the great fire destroyed four fifths of the ancient city of london within three days all that had been familiar settled known was suddenly and entirely swept away londoners faced an emptiness that was not only physical but also historical social financial and conceptual the literary and cultural spaces of restoration london is the first study to situate the literature of restoration and early augustan england within the historical and cultural contexts of the rebuilding of london after the great fire cynthia wall relates the marked topographical specificity of plays poems and novels to a wider cultural network of responses to changing perceptions of urban space and she shows how the literatures of the period along with the surveying mapping rebuilding and official redescribing of the city attempt to reinvest the city with comprehensible meaning and create new spaces for new genres

in pillars of salt lianne merkur offers an account of early 21st century immigration as experienced by israelis in berlin and toronto commonly

portrayed as contrary to the territorial emphasis of national integrity these individuals and communities appear to explore a sense of belonging that evaluates and incorporates both foreign and familiar elements social media allows for an alternative space to balance between new home and homeland studied here as developing simultaneously in multiple sites the author makes use of innovative methodologies to document the participants own perspectives expressed online at events or on paper she thereby challenges established norms of interpretation to prove that personal decisions primarily regarding preferred language or simply self identification are the cornerstones of collective character

in europe these include old london bridge the ponte vecchio in florence the ponte di rialto venice and the pont de notre dame in paris as well as contemporary projects by richard rogers alsop and stormer site morphosis mario bellini bernard tschumi and other leading architects

this volume considers what it is to be a women in the context of the korean american church drawing on participant observation interviews and a review of historical documents jun ha kim focuses on four major issues the role of religious institutions within ethnic communities the role of christian churches as patriarchal institutions issues of status inconsistency and role conflict in marginalized communities and the relative importance of gender and race ethnicity in shaping the identities of women of color
